

## Cuba Project

October 18 - 24, 2016

Christianity in Cuba has "grown in the shadows". In spite of decades of hardships and suffering, Cuba's church is now vibrant and growing!

During my recent trip to Cuba, I had the privilege of preaching in three different churches. At each service, every seat was filled and there were people standing at the back. Latecomers couldn't get in and simply went home. And all of these churches already have two services and all are considering starting a third!

But while people are turning to Christ in record numbers, they need pastors who can help them grow to maturity in Christ. Cuban pastors have told us that they do not feel equipped for this task. They are asking CrossTalk for the training they need to effectively pastor the people God is saving.

While different organizations have tried to help via DVD's, on-line courses and short seminars, these efforts have largely been ineffective. Yet CrossTalk's in-person instruction and mentoring in the context of personal relationship is yielding *excellent* results.

In fact, I just received an email from Julio, one of our Cuban pastors, who told me that last week's residency enabled him to preach an unusually powerful sermon on Sunday!

Why is CrossTalk unusually effective? Our training is:

- Accessible - no educational prerequisites or travel barriers
- Affordable - regionally adjusted tuition
- Reproducible - trainers training trainers
- Practical - culturally compatible training
- Personal - in person, small group instruction
- Long-term - ongoing support and leadership development

If you are looking for an excellent return on your mission investment, consider CrossTalk Global.

With your help and God's enabling, we are training and mentoring Christian leaders who are passionate about Christ, committed to proclaiming God's Word with clarity and conviction, and living examples of His love to their communities.

Thank you for your partnership!

In His service,  
Kent
